Livestock Entrepreneurship Development Programme

Commercial Sheep, Goat and Rabbit Farming

Preamble

Sheep, goat, and rabbit are the livestock species which find a midway niche between large animal farmers and land less laborers. It has been observed that crop production in India is totally dependent upon rainfall pattern hence experiences severe crises and acuteness if monsoon fails. It ultimately affects large animal production also. Under such circumstances the only commodity which can provide substantial sustenance to farmer is small ruminant production along with rabbit rearing, which requires less input and provide desirable output. In current scenario the old age prevailing sheep rearing technology and practices adopted by the farmers in the country will not be able to meet the demand of the stakeholders, although very few farmers are trying to adopt a few technologies to cater the need of the hours but still require improvement and refinement.

In this connection it is submitted that very frequently farmers are visiting Institute and asking for training Programme. Considering above facts, it is proposed to have a complete training module for sheep, goat, and rabbit rearing with scientific way from care and management of day old to its finishing age in all the three species.

Hence it is proposed to have a 07-day Livestock Entrepreneurship Development Programme on sheep, goat and rabbit rearing depending upon the requirement of the client.

Focus Areas

- ❖ Commercial sheep, goat, and rabbit farming
- ❖ Selection of elite sheep and goat for growth and milk
- ❖ Rearing system and feed formulation
- ❖ Housing requirement and management
- ❖ Estrus synchronization and Artificial Insemination
- ❖ Value addition of milk, meat, wool, and other products
- ❖ Vaccination and diseases management
- ❖ Practical exposure to different livestock sectors

About ICAR-CSWRI

The CSWRI is a premier institute of ICAR engaged in research, training and extension activities on sheep and rabbits. It was established in 1962 at Malpura in Rajasthan. Now campus is popular by the name of Avikanagar. It has three Regional Research Centres in different climatic zones of the country to develop region specific technologies, located at Garsa (HP), Mannavanur (TN) and Bikaner (Raj). The Institute has developed prolific sheep Avishan, Avikalin for carpet wool production and Bharat Merino sheep for fine wool production.

CSWRI Avikanagar is situated about 90 km from Jaipur city. The campus is accessible through road only either by Rajasthan state roadways bus service or by hired taxi service. It is located 8 km after Diggi and 5 km before Malpura town on state highway SH-12.
