Dear Director,

ICAR Portal has been developed as per the council requirements for monitoring purposes. The ICAR portal is an integrated system which provides information on all institutions/ Regional Centers and KVKs under a single roof. The portal provides summary information on manpower, financial/budgeting data, AICRP project, major achievements, RAC/RC/IMC/QRV meeting, land assets and RMPs positions for monitoring to higher authority. The system can be accessed through url <https://iims.icar.gov.in/>.

The HYPM nodal officer will also act as nodal office for the ICAR portal of respective institute. ~~The nodal officer can login to the system (HYPM login id and Password) to enter the desired information and data on the portal.~~ Nodal Officer can create users for other sections (Finance/ Administration/ PME etc.) if desired. Refer user manual on ICAR portal for detailed functionality.

If you face any problem to enter the data/information, you may write an email to support.icarportal@icar.gov for necessary support in ICAR Portal implementation.

Every nodal officer has to enter the data for last five years. The data entry and related activities to move portal functional shall be completed by 31.08.2018.

With regards,

Yours sincerely,

(Chhabilendra Rouh)
